March 30, 2015

The Honorable Harold Rogers Chairman Committee on Appropriations U. S. House of Representatives Washington, DC 20510

The Honorable Ander Crenshaw Chairman, Subcommittee on Financial Services and General Government Committee on Appropriations U.S. House of Representatives Washington, D.C. 20510 The Honorable Nita Lowey Ranking Member Committee on Appropriations U.S. House of Representatives Washington, DC 20510

The Honorable José Serrano Ranking Member, Subcommittee on Financial Services and General Government Committee on Appropriations U.S. House of Representatives Washington, D.C. 20510

Dear Representatives:

I write you today on behalf of the Committee on Catholic Education of the United States Conference of Catholic Bishops, to urge your support for the full authorized funding of \$60 million in the *Fiscal Year 2016 Financial Services Appropriations Bill* for the three sectors of the school improvement initiative, which includes the D.C. Opportunity Scholarship Program (OSP). We also want to request your support for important reforms to OSP, to improve access to and participation in the program and to ensure greater accountability and effectiveness of the schools that serve OSP students.

Since its inception in 2004, OSP has been an educational lifeline for nearly 6,000 children from low-income families in the District of Columbia. The great success of the program is clearly demonstrated by its strong educational outcomes and parental satisfaction with the program. With a better than 90 percent graduation rate (30 points higher than D.C. public schools) and nearly 90 percent college enrollment rate, OSP has provided a vital opportunity to the 6,000 children who have participated in the program.

The program also gives crucial support to low-income and minority families and children. The average family in the program makes less than \$22,000 per year; 97 percent of participating children are African American and/or Hispanic; and 88 percent of participating children come from zones whose schools are designated as in need of improvement.

To ensure that eligible children are enrolled and receive scholarships, we continue to urge that the program be implemented in accordance with the provisions of current law. In this regard, we urge you to direct the Department of Education to provide clear guidance to the program administrator so that carryover funds can be used to provide new scholarships to *all* eligible applicants. We also believe a minimum of 2 percent of current carryover funds should be

dedicated solely to parent engagement. Why should any child be denied the opportunity to receive an OSP scholarship when they meet the eligibility criteria and funding is available?

In anticipation of a new program administrator and to improve parental outreach and program accountability, we urge you to direct the Department of Education to provide guidance to the administrator to align the new application deadline for OSP with the deadline for public charter schools. We also support inclusion of language to expand background checks on employees who have direct and unsupervised interaction with students, and we support requiring accreditation of schools participating in the program. These are measures which have long been implemented by the Catholic schools participating in the program, and the expansion of these requirements will help ensure that all schools provide a safe and effective educational setting.

For nearly 150 years, the Catholic Church has unequivocally taught that parents have the right and responsibility to serve as the primary educators of their children. To assist them in this sacred duty, the Church has articulated clearly that children have the universal right to an education, and the state has a fundamental obligation to support parents in fulfilling such a right. In the 1965 *Declaration on Christian Education (Gravissimum Educationis)*, the Second Vatican Council reiterated, "Parents who have the primary and inalienable right and duty to educate their children must enjoy true liberty in their choice of schools. Consequently, the public power, which has the obligation to protect and defend the rights of citizens, must see to it, in its concern for distributive justice, that public subsidies are paid out in such a way that parents are truly free to choose according to their conscience in the schools they want for their children."

We urge you and your colleagues to support the \$60 million annual appropriation, divided equally among the D.C. Opportunity Scholarship Program, D.C. public charter schools, and D.C. public schools, and support the reforms necessary to improve participation in and effectiveness of the OSP program.

With prayerful best wishes,

+ George (These
